

MM.01 massage motor: Promoting health and relaxation

Bedding applications can benefit from an additional massage function - it gives electrically adjustable beds the decisive plus in comfort. It also relieves tension and promotes relaxation. OKIN's MM.01 massage motor is the best choice when it comes to comfort in bedding applications. The motor is operated using an OKIN remote control. Users can choose between different massage types and massage strengths. The massage motor has four mounting holes for easy installation.

Kundenvorteile

- 3 levels of massage strength, 4 modes

Standard configurations
